

# Job Description

## Java Developer

Salary up to £35,000 per annum

Location: Stafford

We are looking to recruit a Java Developer to take on the development of our Internal portals and API integration requirements across the group. This role is a pivotal appointment and is a direct report into the Operations Director.

The successful candidate will be responsible for the overall and development of customer facing platforms and ensuring the latest API Integration technology is deployed. Responsibility for the development of internal portals will also be key.

The role will be highly visible with company stakeholders and therefore it is expected that you will have exceptional communications skills at all levels.

All though you will be our principal developer, liaison with all the engineering team will be key to successfully complete your goals.

### **Skills / Experience Required**

We would expect the candidate to have a proven track record using Java in a development role. Experience in other areas such as PHP, MYSQL, LAMP application and Linux desirable.

Other

- VoIP Phone Systems (Ideally, Asterisk, FreePBX)
- Virtualisation Technologies (VMWare, KVM, HyperV)
- Good working knowledge of IP and the OSI layers
- Excellent analytical abilities.
- Experience of TDM to SIP gateways (dialogic).
- Experience of SQLite, VICIdial, LimeSurvey number systems, application servers (Tomcat / SSL).
- Holds a current Driving licence.

### **To Apply:**

Apply with covering letter and CV to [recruit@xcomm.co.uk](mailto:recruit@xcomm.co.uk)
